When the End Came.

The Secretary had passed a most com-fortable day, and when Dr. Scudder arrived from Boston at 8:29 p. m., and went to the Felis, he found his patient much improved, all symptoms being favorable. During the day the Secretary had rested quietly, and had taken a good quantity of nourishment.

Dr. Scudder was so well satisfied with his condition that he retired for the night at 10 o'clock, and the entire nousehold, with the exception of the nurse, retired at about the same hour. The nurse lay down on a couch in the Secretary's room

The nurse lay down on a couch in the Secretary's room.

At II o'clock she noticed that the sick man was resting quietly. At midnight her patient called her, and she noticed a serious change in his condition. She at once summoned both Drs. Scudder and Murphy, as well as Mrs. Hay.

The doctors and Mrs. Hay hastened to the bedside, but the Secretary passed away in a few moments. So quickly did the end come that the son was unable to reach the sick room before the father had breathed his last.

began to show symptoms of serious illness, and on the advice of his physicians a trip abroad was decided upon. He was suffering from overwork and he almost collapsed on the White Starsteamship pier at New York just before going abroad the Cretic for a six weeks' Mediterranean tour.

The distinguished diplomat, taken suddenly faint, sank down on a bale of merchandise. Recovering somewhat he had to be carried to the gangplank in a rolling chair.

Relatives who were with Mr. Hay made light of his attack and declared that no serious trouble menaced him. Persons who saw the Secretary while he was recovering, thought he looked sick man, and in need of rest. The Secretary spent some time on the continent and took a course of the bats at Bad Nauheim.

In Secretary Taft's ability to conduct the President had full confidence, which he showed by designating him as Acting Secretary of State during Mr. Hay's absence. Clara Stone, daughter of Amasa Stone. For a short time he devoted himself to literary work, but did not lose his interest in political affairs.

Mr. Hay was appointed to England in 1897 by President McKinley. In 1898 he was recalled to America to become Secretary of State, a post he held until his death.

said office."
Had William McKinley's death oc-curred seven months earlier John Hay would have been President of the

United States.

Through the two long periods when there was no Vice President, Mr. Hay performed the duties of Secretary of State without being hampered by the dreams of ambition that might have come to many men in his situation.

Unexpected Statescraft.

Before he entered it he was regarded as an accomplished literary man whos prose and rhyme had delighted many readers. It was not, however, suspect ed, except by the few who knew him well, that he possessed the great abilities of statesmanship which he dis-

played in recent years. When Mr. Hay returned from England in the fall of 1898 to become Secretary of State in President McKinley's Cabinet, he was confronted by new problems. The new relations into which the Government had entered with the rest of the world through the result of the war with Spain and its acquisition of territory in the Far East, brought into greater prominence the administration of foreign affairs.

Mr. Hay's task required not only a firm hand, but comprehensive knowledge, remarkable prescience, and, most of all, a rigid determination and ability to overcome discouraging obstacles. land in the fall of 1898 to become Sec

A New Diplomacy.

Almost from the moment of his enering upon the discharge of his official duties, Secretary Hay elevated liplomacy to a higher plane than it had then occupied in the history of the world. He made it mean something, and he made it stand for honesty in national purposes, and in the relations of nations.

From this beginning Hay, more than which left Washington last night en route to San Francisco on their Philippine trip, heard of Secretary Hay's death at Benwood Junction this morning.

They were grieved beyond expression. Secretary Taft said the death of the distinguished diplomat and scholar was in international law at Columbia Col-

relation of the country to the rest of the world.

The Spanish war made necessary some intermeddling by the United States with the affairs of the Orient, and as nearly every power of Europe is in some way concerned in the East, new lines of negotiation, new purposes to be effected, were opened with the establishment of American sovereignty over the Philippines.

Open Door Policy.

Among the people generally, Mr. Hay s best known for his "open door" policy in China. This brought about a recognition of the right of the United States to trade as freely as any other nation with that empire which at the time head here. Mr. Hay persuaded the powers to make a formal declaration for this policy. It was regarded as a feat in diplomacy. In the same year, 1899, Mr. Hay arranged a settlement of the Samoan question, by which Germany and the United States divided the islands. The United States by this agreement surrendered no commercial rights, and gained the best harbor in the South Pacific.

Other triumphs might be cited—his settlement in 1901 of a long-standing controversy with Turkey by which an indemnity of \$35,000 was paid to American missionaries and citizens; the sending of the first case to The Hague tribunal, and his appeal, in a note to European governments, for better treatment of Roumanian Jews.

Roumanian Jews.

As an author Secretary Hay took high rank. He was a master of the English tongue. "Jim Bludso" and "Little Breeches" and other poems in his "Pike County Ballads" are famous. They were written during his college days and the decade following. While secretary to the legation at Madrid he wrote "Castilian Days," studies of Spanish life and character. His most pretentious work was "Life of Abraham Lincoln," which he wrote in collaboration with John G. Nicolay. It appeared in ten volumes, in the preparation of which Mr. Hay spent several years, beginning in 1881.

Hague Tribunal.

It was through Secretary Hay that The Hague tribunal of arbitration, neglected and virtually rejudiated, received

a new lease of life. The first case ever brought before the tribunal involved a dispute between the United States and another American nation, the Republic of Mexico, and it is noteworthy that in the only other case which the court has heard the American Government was a participant and the

which the court has heard the American Government was a participant and the prime mover.

Mr. Hay's note to European governments concerning the Roumanian Jews attracted world-wide attention. His appeal for more liberal treatment of these down-trodden people was based upon the practical ground that the abuses they had suffered forced them to seek a refuge in the United States, and to this Mr. Hay objected, deeming it unjust to America that a horde of poverty-stricken people, unfitted to fight the battle of life in a new environment, should be landed upon our shores.

While the Roumanian government was indignant over the direct manner in which the United States Government is subjects, the words of Mr. Hay bore ty good fruit. Reform measures were adopted, and the undestrable immigration to this country was curtailed.

Secretary Hay's artistic tastes had opportunity for display in the furnishings of his home. Friends regarded it a privilege to be invited into Secretary Hay's "den," where some of his choicest possessions were kent.

It was said by some persons that Se retary Hay, during the later years of his life was sensitive about his youthful poetic efforts, and that he disliked to admit the authorship of such poems as "Jim Bludso" and "Little Breeches."
